

Southwest Region Aerospace Education Officer School at the 2018 Texas Wing Conference in San Marcos, Texas

February 1st & February 2nd 2018 - Thursday & Friday

LEARN WHAT'S NEW IN AEROSPACE EDUCATION!

- Classes cover everything new in AE and provide all **AE regulations and pamphlets**
- Review the steps needed to progress in each rating of the **AE specialty track**
- Learn how to teach with and use AE **STEM kits**, and all other products
- Learn how to enroll, report and complete an **AEX** activity with hands on in class
- Learn how to promote and run your external AE programs (**AEMs/ACE/Top Flights**)
- Learn all the **AE awards** and what makes a worthy nomination
- Find out about how to search for **grants and funding**
- Complete the new electronic **Plan of Action** in eservices for next year activities
- Complete the new electronic **Activity Report** for last year's activities in eservices
- What's new and how to stay ready for your next **Subordinate Unit Inspection**

WHAT'S IN IT FOR ME?

Attending the school will provide all knowledge requirements for the technician, senior, and master ratings in the AE specialty track. Completing the school meets an aerospace conference service requirement towards the senior rating. Presenting an AE activity at the school meets a performance requirement towards the master rating. The school also provides a variety of presentations and "hands on activities" for commanders, aerospace officers at all echelons, aerospace education enthusiasts, and AEMs. Enable your squadron to exercise the aerospace education mission within CAP and conduct AE outreach into your local community. Don't miss out!

REGISTRATION INFORMATION

School Cost: only \$25

Register at <https://www.txwgcap.org/conference/>

DEADLINE IS 22 JAN 2018 for registration

For more information call Capt Richard Bonica (281) 935-7222
or LtCol Vural (817) 657-2230.
